OSGB  
Coordinates

British National Grid Easting:256238, Northing: 913884

<b>NMP - Blarbuie</b>	
Weather conditions at installation	Light to moderate, 90% cloud cover 15°C
SLM Serial No.	00410085
Noise environment	<p>Dominant noise source: Wind-blown vegetation, including trees in garden, hedgerows, and long grasses in surrounding fields.</p> <p>Other noise sources: Infrequent bird calls. Very distant, very infrequent road traffic movements occasionally slightly audible. Activities of residents within houses occasionally audible. Bees/insects audible at low level fairly continuously.</p>

Chart 1 – Time History of Measured Noise Levels at representative NMP

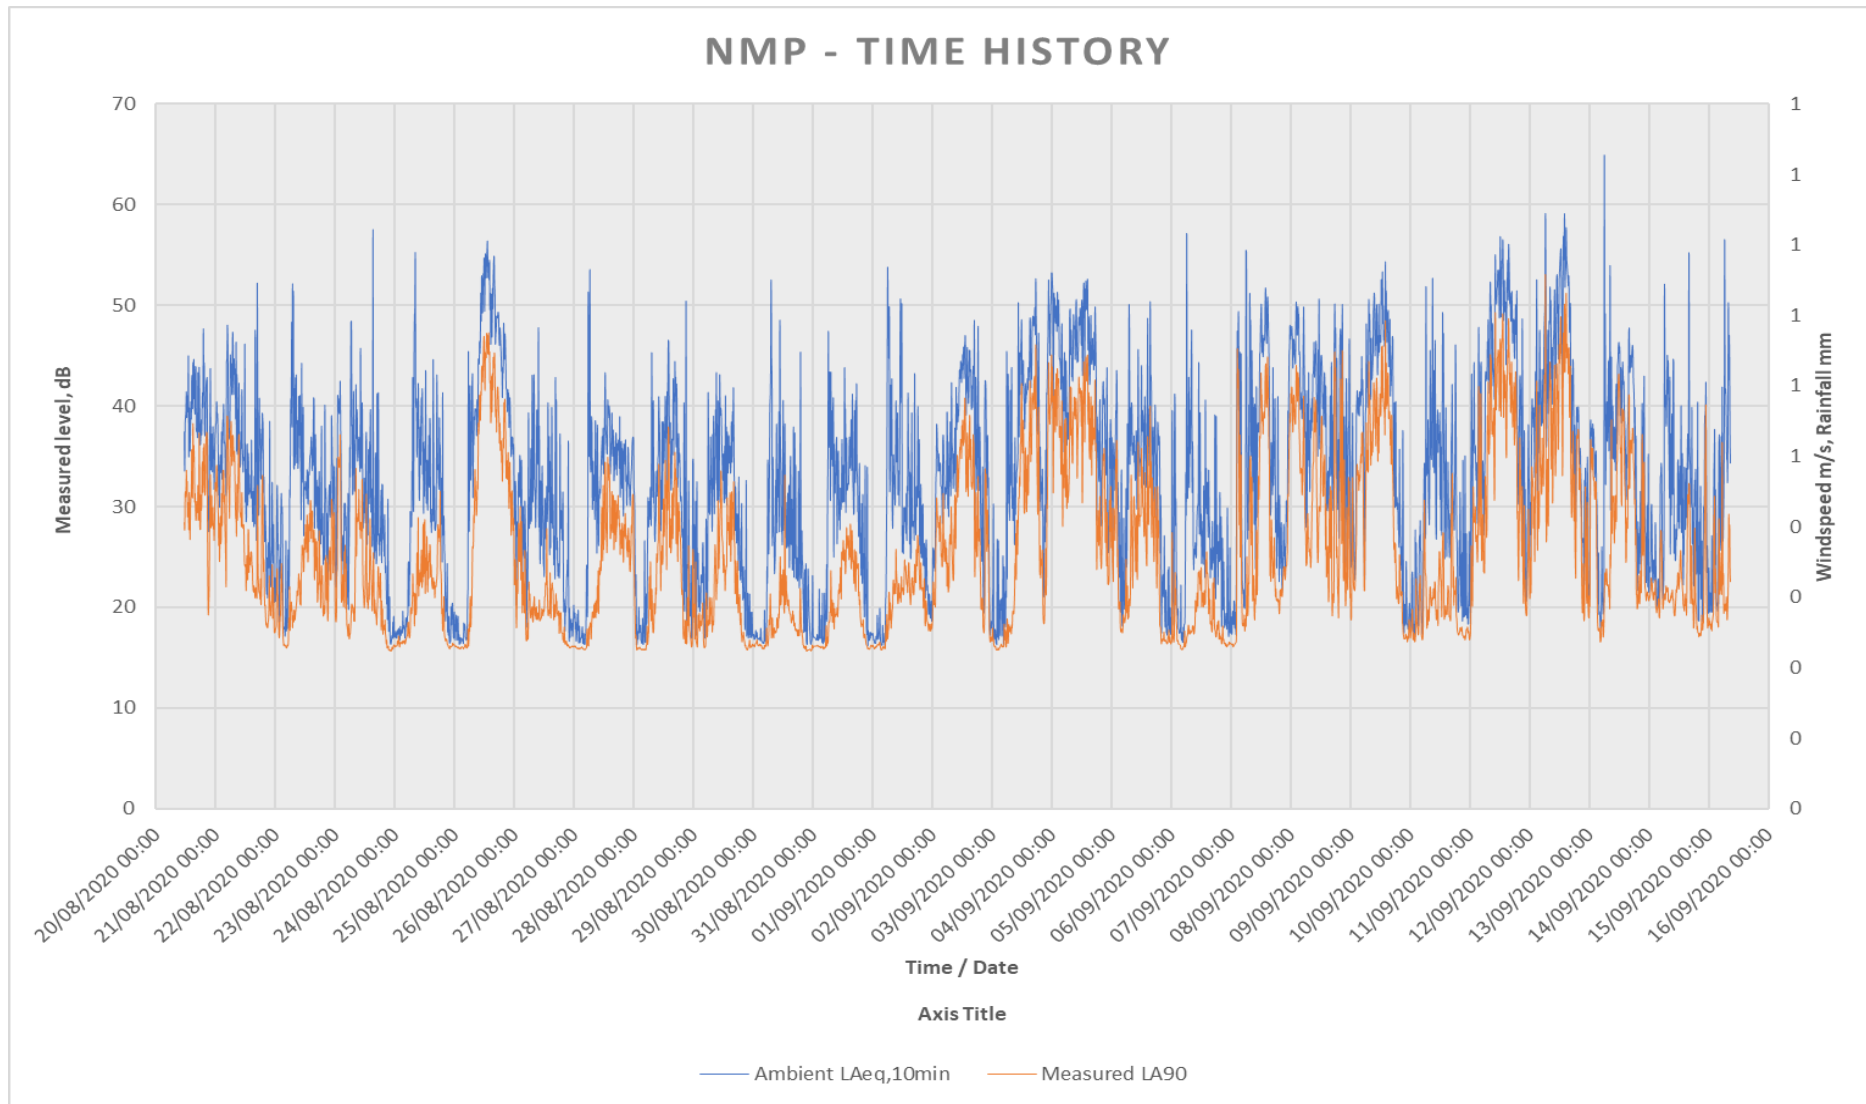

Chart 2 - Evaluation of predicted noise levels against noise limits – Proposed Development
